## MOVIE & TV REVIEWS

IT

"It" is a horror remake of the TV miniseries from 1990, telling the story of kids who search for a demonic clown named Pennywise after kids all around the small town of Derry go missing.

This film is not only the best horror film of the year, but it's also one of the best horror films in the history of cinema.

The directing is the best thing about this movie. It's super complex and very sophisticated; however, the script is average.

The pacing of the film is very rushed, but the dialogue is incredible. However, the dialogue wouldn't be great if it weren't for the performances of all of the actors. Jaeden Lieberher as Billy and Bill Skarsgard as Pennywise have the two best performances in the film.

When it comes to visuals, the film was a let down. It's not that the visuals were horrible, it's just that they were pretty dull and amateurish. Despite these let-downs, the movie does redeem itself by having artistic choices, such as unique camera shots and use of color, here and there.

"It" is not only one of the best horror movies, but it's also a great film for non-horror fans.

## AMERICAN HORROR STORY: CULT, EPISODE 1

"American Horror Story (AHS): Cult" is the newest season in the AHS series. It centers around a Hillary Clinton supporter and Donald Trump supporter on the night of the 2016 election. They both, after hearing the election results, lose their minds. One starts seeing her fears come to life, and the other plans some sort of revolution.

The first episode titled "Election Night" starts out pretty rough. It was very political at the start of the story, and the show seemed

more interested in promoting propaganda than actually telling a story. However, that soon ended halfway through the episode, and the story finally got interesting.

Some of the returning actors include Sarah Paulson and Evan Peters. They both are amazing. At first, I thought they were just doing a bad acting job, but then I finally understood how disturbed their characters were.

This episode did have its flaws, but this season is definitely a unique reinvention of the show.
